EDUCATION

University of Wisconsin–Madison

Madison, WI

B.S. Data Science & Economics; Minors: Consulting, Entrepreneurship, Business

Aug. 2022 – May 2026

- **GPA:** 3.708, Dean's List 4x

- **Relevant Coursework:** Data Science Programming, Econometrics, Economic Forecasting, Statistics, Big Data Systems, and Project Management

EXPERIENCE

API Product Intern

June 2025 – Jan 2026

VoteSmart

Remote (Des Moines, IA)

- Built a Python data ingestion workflow across **60+ REST endpoints**, handling authentication, pagination, rate limits, and error responses to streamline access to **100M+** structured political records.
- Standardized complex JSON responses into analysis-ready tabular datasets using pandas, schema normalization, batching, and validation checks to improve consistency across recurring data workflows.
- Created reusable documentation, query examples, and data access guides to help analysts and researchers retrieve and interpret data efficiently.

Research Assistant – Behavioral Research Projects

June 2025 – Dec 2025

Wisconsin School of Business (Prof. Chia-Jung Tsay)

Madison, WI

- Developed a Python-based workflow to analyze and classify **1,200+ product reviews**, reducing manual review and labeling time by **60%**.
- Automated text cleaning, categorization, and attribute-level sentiment scoring to transform unstructured review data into consistent, analysis-ready outputs.
- Analyzed CEO interview transcripts using keyword searches and pattern matching to identify recurring themes and organize findings for research analysis.

Undergraduate Research Assistant

Aug 2024 – May 2025

Wisconsin School of Business (Profs. Lu Han & Christopher Timmins)

Madison, WI

- Developed a Python & Excel Power Query workflow to clean, standardize, deduplicate, & validate a **140K+ record** urban economic dataset, reducing manual processing effort by **80%** & improving processing speed by **60%**.
- Built automated checks for missing values, duplicate entries, outliers, formatting errors, and inconsistent data types, and documented procedures to support accurate and reproducible analysis.

Peer Mentor – Big Data Systems (CS 544)

Sept 2025 – May 2026

University of Wisconsin–Madison, Department of Computer Sciences

Madison, WI

- Mentored **100+ students** on SQL querying, joins, aggregations, relational databases, Spark DataFrames, Spark SQL, and BigQuery across large-scale data analysis projects.
- Helped students troubleshoot query logic, data type and schema issues, missing or inconsistent records, and pipeline failures to improve the accuracy and reliability of project results.
- Supported projects involving MySQL, Spark SQL, BigQuery, and Linux data pipelines, helping students improve query performance, data accuracy, and processing efficiency.

PROJECTS

E-Commerce Sales & Operations Analytics Dashboard

Summer 2026

SQL, Excel, Python, PostgreSQL, Power BI

- Analyzed transaction-level e-commerce data to evaluate revenue trends, customer behavior, product performance, discount effectiveness, and key operational metrics.
- Wrote SQL queries in PostgreSQL to aggregate and compare sales performance across products, customer segments, order periods, and sales channels.
- Developed Excel and Power BI reports to communicate findings and present recommendations related to pricing, discounts, customer targeting, and revenue growth opportunities.

TECHNICAL SKILLS

Analytics & Reporting: SQL, Excel, Power BI, Tableau, Power Query, Google Sheets

Databases & Query Tools: PostgreSQL, MySQL, BigQuery, Spark SQL

Programming & Data: Python, Pandas, NumPy, R, Stata, scikit-learn

Data Analysis: Data Cleaning, Data Validation, Data Wrangling, ETL, KPI Reporting, Dashboarding, Regression Analysis, Hypothesis Testing
